

# WORLDQUANT CHALLENGE

## Quantitative Finance Research Consultant Program

*WorldQuant is a quantitative asset management firm founded in 2007 and currently has over 600 employees working in more than 20 offices in 15 countries. We develop and deploy systematic financial strategies across a variety of asset classes in global markets, utilizing a proprietary research platform and risk management process.*

### Scope of Engagement (including, but not limited to the following):

We are seeking candidates with engineering, science, mathematics and finance backgrounds for part-time research consultant positions involving the creation of computer-based models that seek to predict the movements of worldwide financial markets. Candidates need not have prior knowledge of financial markets but must have a strong interest in learning about stock markets and financial markets. Upon joining us, we will provide a series of quantitative finance training and seminars to offer you a chance to learn the fundamentals of quantitative finance and theoretical stock price movement prediction techniques.

### We offer outstanding learning and earning opportunities, which include:

- ☐ Performance-based compensation for successfully contracted consultants
- ☐ Training classes and seminars about quantitative finance research and modeling
- ☐ Access to our web-based simulation platform for developing quantitative financial models
- ☐ An opportunity for candidates with engineering, science, mathematics and finance backgrounds to break into the financial industry

### Qualifications:

- ☐ Students, graduates or professionals with engineering, science, mathematics and finance backgrounds or any other related field that is highly analytical and quantitative
- ☐ Strong interest in learning about worldwide financial markets
- ☐ Basic understanding of English in order to register and navigate the platform

### Locations:

Flexible and online. As a Research Consultant, you can use our proprietary web-based simulation platform to experiment with quantitative investment research at any time from any approved location so long as you have an internet connection.

### How to Apply:

Interested and qualified candidates please register at <https://www.WorldQuantChallenge.com> to apply.
